

September 2019

Dear Parent/Carer,

I am writing to you regarding the delivery of the Health and Personal Relationships Programme to all students during their weekly Personal Development lessons throughout this academic year. It is the policy of the Academy to inform parents/carers as to the content of this programme.

The lessons will include information about: friendship; how the body changes from childhood to adult; feelings and emotions which may accompany these changes; personal safety and gender. All staff at Castle Hall Academy will teach these lessons in accordance with the support and guidance from the National PSHE Association.

The programme is prescribed by the government and is delivered to single sex groups, where appropriate. All the lessons and information will be delivered in a sensitive manner with regard for family, moral and religious beliefs.

Yours sincerely,

Miss B Donoghue
Head of Personal Development
